NEW CARDINAL IS  
UNLIKELY, CHURCH  
OFFICIALS BELIEVETwo American Cardinals  
Now Both In East, It Is  
Pointed Out.Bishops Will Meet Secretly  
To Recommend Three  
For Position.

Baltimore, Md., March 25.—Baltimoreans probably will continue to call the gray home at Charles and Mulberry streets "the cardinal's residence" for many years, but in the opinion of persons well versed in Catholic church affairs, it is likely to be a long time before another cardinal as its permanent occupant. In view of the fact that there are two American cardinals now, and both in the east, such a probability seems remote, they are convinced.

The throne in the Cathedral upon which Cardinal Gibbons, who died yesterday, performed the ecclesiastical functions of his high office since receiving the red hat in 1896 will be devoted of its brilliant hangings of cardinal red which will be replaced with the deep purple of an archbishop.

According to the usual procedure the bishops of the Baltimore province will meet in secret conference here within the next two months. They will discuss among themselves the merits of the various candidates for the archbishopric. The result of the discussion will be the recommendation of three names. They will not be announced but will be submitted to Rome. The pope will almost surely select the next archbishop from among these three bishops although he is not required to do so.

Speculation, therefore, centered on the three names that the provincial convocation will recommend. Out of this speculation the names of Bishop William T. Russell, of Charleston; Bishop Michael J. Curley, of St. Augustine and Bishop Thomas J. Shahan, of the Catholic University, stand out. In the interim, the affairs of the Baltimore diocese will be handled by an administrator. It is understood that Bishop Owen J. Donaghy, vicar general, will be named to this post by the diocesan consultants today. He took over the work when Cardinal Gibbons became incapacitated, but since he was auxiliary bishop without the right of succession, his functions as administrator ceased at the death of the cardinal's death and his re-election to that office becomes necessary, it was explained.

CROSS COUNTRY  
FLIGHT ENDS  
IN ACCIDENTLieutenant Coney Probably  
Is Fatally Hurt When  
Plane Falls In Remote  
Section of Louisiana.

Monroe, La., March 25.—Lieutenant W. D. Coney, army air service, fell near Crowley, La., at 7.30 a. m. today while attempting a return flight from Monrovia, Fla., to San Diego, Calif. According to reports reaching here, Lieutenant Coney received injuries which may prove fatal. His plane was wrecked.

Coney's back is believed to have been broken but he was reported still conscious at noon today. He is now at the farm of Mose Lanier, upon whose premises he fell.

The cause of the accident and other details were unobtainable here several hours after the accident. It was said, however, that the war department had been notified.

The scene of the accident is in a somewhat isolated part of Franklin parish and it was several hours after the accident before the first news of it reached this place.

Crowley is a small town on Deer creek in Franklin parish in the north-east section of Louisiana. The country is swampy roads are built of logs on dikes, making travel and communication extremely difficult. At this season of the year travel is the worst.

Crowley is several miles from a narrow gauge railroad. The nearest town of any size is Winnboro.

Coney's airplane struck a tree while he was attempting to make a landing near Crowley. The landing was attempted after engine trouble had developed and the plane fell about 75 feet. Lieutenant Coney was flying over a swamp wilderness in northeast Louisiana when the engine got in difficulties.

CINCINNATI POLICE  
FIND SPEECHLESS GIRL

Cincinnati, March 25.—A girl who may be Ruth Carr, 17 of Franklin, Ohio, was found in the Chesapeake and Ohio railroad station here early today, unable to account for her presence.

How or where she left her home, or could she tell why she could not speak above a whisper. Physicians at the Cincinnati general hospital are trying to solve the problem of her ailment.

The girl does not know how she reached Cincinnati. In her purse was found a railroad ticket from Hamilton to Cincinnati. She does not remember, she says where she secured the ticket; does not remember if she was in Hamilton, nor why she left home. Physicians declared that she is suffering from hysteria, a feature of which is her inability to speak above a whisper.

WHERE MRS. STILLMAN AND HALF-BREED  
SPENT MANY NIGHTS IN SEPARATE ROOMS

The boarding house at Manugance Rapids, Que., and Father Lemay, curate of Grandes Piles, friend and defender of Mrs. Stillman.

The keeper of the above boarding house at Manugance Rapids, Que., has testified that Mrs. James A. Stillman and the half-breed guide, Fred Beauvais, named as co-respondent by Mrs. Stillman's husband in his divorce action, spent several nights there one summer but occupied separate rooms. Stillman is a multi-millionaire New York banker. Both Mrs. Stillman and the guide deny any improper relations. Father Lemay of Grandes Piles, Que., is a friend of Mrs. Stillman and defends her actions in the northwoods.

DEBS, FEDERAL PRISONER, GOES TO  
CAPITAL ALONE, FOR CONFERENCE

Washington Astounded When New Administration Extends Unprecedented Privilege to Prisoner Serving Term For Disloyalty—Veteran Press Correspondents Dumbfounded By Daugherty's Announcement.

Washington, March 25.—Surprise, more than mild, lingering in the wake today of the unheralded visit to Washington, unattended, of Eugene V. Debs, imprisoned Socialist leader to discuss his case with Attorney General Daugherty.

Slipping into Washington early yesterday Debs had gone to the department of justice held a three hours conference with the attorney general and left to return to the Atlanta penitentiary before his visit was announced by Mr. Daugherty to a group of dumbfounded newspaper men, whom the Socialist leader had successfully evaded throughout the day.

In announcing the visit of Debs, whose case here recently was directed to review by President Harding, the attorney general said he had called the Socialist leader to Washington after conferring with the president. In as much as Debs had defied himself at the trial, Mr. Daugherty said, it was decided that he should come here to answer such inquiries as the government desired to make.

The attorney general refused to comment on Debs' presentation of his case or indicate what recommendations he

might make in the matter of clemency. The Socialist leader is serving a 10 year sentence for violation of the espionage act.

PRISON WARDEN WILL  
NOT DISCUSS ACTION

Atlanta, Ga., March 25.—Warden Fred Zerk of the federal penitentiary here continued today his flat refusal to discuss the visit of Eugene Debs to Washington. Debs himself was not expected to reach Atlanta until this afternoon and whether he would be met by a group of department of justice agents in a hotel or at the penitentiary would not be ascertained.

The Socialist leader was expected to immediately resume his duties in the prison hospital to which he was assigned soon after beginning his term of 10 years for violation of the espionage laws. Debs' departure from the penitentiary Wednesday was carried out with such secrecy that his local attorney, S. M. Castleton, said, that even he did not know it.

TURKS DEFEAT  
GREEKS IS CLAIM

Officials Declare Armies  
Clash East of Smyrna and  
1700 Greeks Are Taken  
Prisoners.

Constantinople, March 25.—Turkish officials reports declare that the Turkish Nationalists east of the Smyrna district have attacked and defeated the Greek army before an offensive on Wednesday. It is said that 1700 Greeks were taken prisoners and that the nationalists have captured twenty guns. The Turks at first retired before the Greeks advance, reports state, but being reinforced, they launched a counter offensive.

It was claimed in Greek circles here yesterday that the town of Eski-Shehr, one of the objectives of the offensive, had been taken, but this rumor has not been confirmed. The Turks have closed the American consulate at Marston, in the village of Sivas, charging that the president of the institution favored the establishment of a Greek Republic in western Asia Minor.

Turkish Nationalist advisers declare the Greeks in carrying out their offensive are following the same plan adopted eight months ago, but that it is possible Greek forces may be landed at Trebizond, on the southern shore of the Black Sea. The Turks have nine divisions on the Smyrna front, and three before Bursa. The Greeks have the Greek quarters here, that their troops are stronger numerically.

Reports received from Turkish sources yesterday declared that 800 Greeks had been taken prisoners, and it was said the Turks were offering obstinate resistance. It was claimed in Greek quarters here that their troops had taken 700 prisoners in the first day's fighting. The Turks, it is understood, have planned to retreat into the interior, if beaten and resume guerrilla warfare on the Hagd railway line. All horses, camels and donkeys within the Greek line have been requisitioned by the Greek army.

## STUDENTS TO VISIT EUROPE.

Columbus, March 25.—Prof. Robert Fourie of the department of romance languages at Ohio State university will conduct a tour for students through France and Belgium this summer. Universities and places of interest in Switzerland and England as well as the Netherlands of Belgium and France will be visited.

GIRL ARRESTED  
IN MAIL PLOT

Toledo Police Bring Suspect  
Back From Chicago In  
Million Dollar Robbery—  
Is One of 18 Indicted.

Toledo, March 25.—Postoffice inspectors from the Toledo district will go to Chicago today to bring back Wanda Urbaytis, wanted in connection with the mail robbery here on February 17 when more than a million dollars in cash and negotiable papers was taken in a holdup over the state line in the central postoffice here.

The girl, according to the inspectors, had managed to elude pursuit since February 20 when she locked herself in a compartment of a train going to Chicago and fled officers at Elkhart, Indiana, where her brother, Joe Urbaytis and a pal, Joe Culbert were captured.

Mrs. Urbaytis and her brothers Joe and Frank are among 18 individuals indicted by the federal grand jury here this week. Police and postoffice inspectors here see a connection between Wanda Urbaytis and three other women under arrest in Chicago for some part in the Toledo holdup.

The Urbaytis girl was known to have carried a large traveling bag when she entered the train with Joe and Culbert at the union stations here. No trace of the bag was found on the train.

The other three women, whose detention resulted from an alleged lavish expenditure of money were given a share of the loot, the inspectors believe.

Wanda Urbaytis first attracted police attention here in 1917 when as a telephone operator at a local brewery she was accused of assisting her brothers, Joe and Frank, and three other young men, in the robbery of the brewery's paymaster of several thousands of dollars. The indictment against her was quashed because of lack of evidence. The boys were captured in a corn field over the state line in Michigan and the money recovered.

Two Toledo men were arrested recently at Gary, Indiana, when an automobile in which they were riding bore an automobile license tag issued to the Urbaytis girl.

RUSS RADICALS  
ARE BLAMED FOR  
GERMAN UPRISING

Paris Hears That Large  
Numbers of Bolsheviks  
Enter Hamburg.

Bring Plenty of Money For  
Propaganda Purposes  
Say Official Reports.

Paris, March 25.—Official circles here regard the Communist uprising in Germany as "spurious" basing their judgment on dispatches received in this city. The latest reports reaching official quarters are to the effect that a large number of Russian Bolsheviks succeeded in entering Hamburg stung with them large supplies of money for propaganda purposes. The uprising there is attributed for the most part of their influence.

FIERCE FIGHTING IS  
REPORTED IN EISELSEN

Eisenberg, Germany, Thursday, March 24.—(7.10 p. m.)—The street fighting as a result of the Communist outbreak which has been in progress for the last 48 hours in this important copper mining town of Saxony, was continuing desperately tonight with a hand-to-hand combat at the railroad station and in the streets in the center of the city. The rattle of machine-gun fire, the crash of hand grenade explosions and the popping of rifles has been going on steadily for the last three hours. Two thousand police were holding the east half of the town while 2,500 workmen were in possession of the west section. All the workers are heavily armed and well disciplined.

The intensity of the fighting may be judged from the fact that the railroad station changed hands twice in the 20 minutes preceding the filing of this dispatch.

The police now are in possession of the station, bodies of the dead and severely wounded were still lying in the streets where the victims fell 20 hours ago. The less severely wounded were crowded in sheltered doorways with bullets raising puffs of dust about them.

The extent of the casualties on either side is not definitely known, but at least 20 were killed and 50 wounded in this morning's fighting.

Railroad and telephone communication with Eisenberg have been cut and no automobiles have been allowed enough to enter the city in his car. The correspondent came into the town on foot.

The telegraph office was found in the hands of the police, who consented to transmit this report. The fighting, the sending of the message proceeding while machine guns raked the adjacent streets and the people living nearby were huddled in their darkened houses, peering through blinds.

The workers were holding the municipal lighting plant, but permitted its continued operation.

All the roads leading into the town are under fire.

The fighting at this hour appeared to be a lull, but the fighting seemed probable that further wire communication with the outside world have to be from Halle 18 miles distant.

AUTHORITIES SEEK TO  
AVERT FURTHER RIOTS

Berlin, March 25.—Governmental authorities today continued their efforts to avert further disorders in Prussian Saxony and in Hamburg. Following the first outbreak of violence in many Saxon towns, there came yesterday a period of comparative quiet, but officials proceeded on the theory that new outbreaks might come at any time.

Forces of security police were near Eisenberg last night, and it is believed a clash with the communists, who yesterday were in virtual control of that city, is imminent. Loyals found were holding a part of the town but were being besieged by the Communists at last reports.

Organized labor seems not to have lent its support to the revolutionary movement, and although there has been a threatened disorders in Berlin, the authorities have been too vigilant to prevent anything approaching an organized strike to develop.

Communists who occupied the Ham and Voss ship and dock yards at Hamburg have been ejected.

COMMUNISTS ARE BEING  
OVERCOME BY OFFICIALS

London, March 25.—Although the situation arising from the Communist outbreak in Germany is still dangerous, the Communists are being overcome by the forces of law and order, according to reports from the definite centers, says a Central News dispatch from Berlin today.

At Eisenberg, where the situation yesterday was reported most critical, the police reports state, have driven out the Communists who have entrenched themselves in the neighboring hills and are directing machine guns against the police stronghold. The troops are marching on Eisenberg and over the highways as railroad communication has been destroyed. There has been no repetition of the disorder in Hamburg where the police are masters of the situation the reports add.

FORMER NEWARK  
MAN INVOLVED  
IN WILLARD RAID

Federal Officers Seize  
Liquor In Mayor C. J.  
Barber's Office.

Other Places Raided Where  
Stolen Goods Are Said  
To Have Been Found.

Raids by federal officials at Willard this morning resulted in the seizure of quantities of liquor and liberty bonds in the office of Mayor C. J. Barber, a former Newark man, according to Associated Press dispatches to the Advocate from Toledo. The dispatch said that reports were that liquor or drugs were said to have been made, sold or secreted in the office of the mayor and marshal.

Barber formerly was a painter here and was a member of the department when it was manned by municipal men many years ago. He went to Willard, then Chicago Junction, where he engaged in the paint manufacturing business.

The town of Willard was agog with excitement the dispatch said, when without warning more than 20 federal agents swooped down and raided six places including offices of the mayor and town marshal.

A quantity of liquor and numerous liberty bonds were found in the offices of Mayor C. J. Barber and Mrs. William King the federal men declare.

Other places raided up to noon are The Green Tree Cafe owned by Steve Teglovie where the proprietor was arrested after shoes, clothing and cigars believed stolen from interstate shipments were found. The home of Shackle Stapanof where two armed negroes were found and arrested.

A soft drink parlor at 107 Spring street where liquor, clothing and cigars were found and a still in the second floor destroyed and the home of William King at William Zink both Baltimore and Ohio railroad baggage men.

More raids were scheduled for this afternoon.

Federal men say they have had the town under surveillance for months and that they believe a drug, liquor and railroad theft ring has been broken up.

GENERAL WAGE  
CUT NOT PLAN  
OF OHIO ELECTRIC

Vice President Said Such  
Cut Would Be Made Gradually  
to Meet New Conditions.

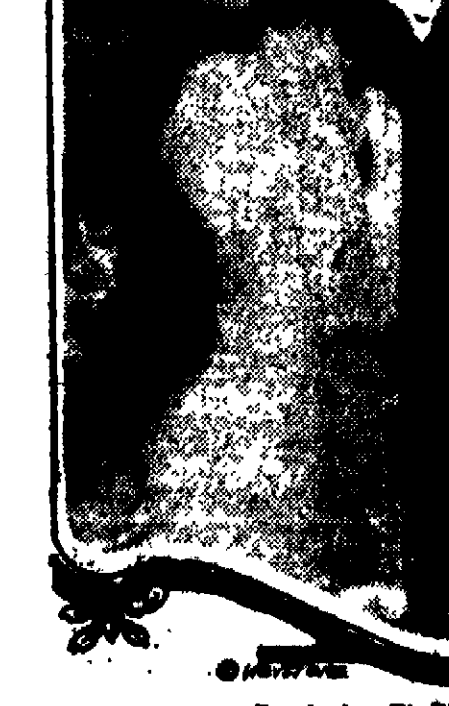

Simultaneous reduction of the wages of all the employees of the Ohio Electric railway is not included in the plans for the curtailment of the operating expenses of the road, according to an announcement made by H. C. Gilpin, vice president and general manager of the company in Springfield today. It is time however, Gilpin said the road may be forced to regulate its operating expenses by cutting the wages of all employees to conform with the falling prices.

Such a cut would be made gradually he said. Wages of some employees are being cut now.

## HUDSON PLANT RESUMES.

Detroit, March 25.—Resumption of full time operations effective March 28, was announced today by the Hudson Motor Car company. The company has been operating with a curtailed force on a reduced working schedule for several months.

## ARRIVE FROM CHINA ON HONEYMOON

Dr. Arthur W. Woo, assistant surgeon in gynecology and obstetrics at the Peking Union Medical hospital, the Rockefeller Foundation hospital, has come to the U. S. with his bride for their honeymoon. Mrs. Woo is the daughter of Choy King, one of China's wealthiest merchants.

BESPOONDENT MAN HANGS  
SELF ON EDGE OF CLIFF

Elyria, March 25.—After a 10 hour search the body of John Nagy, an employee of the National Tube company was found last night hanging suspended by several feet of electric lighting wire over a cliff which forms a bank of the Black River. Nagy was missed from his work about 10 o'clock yesterday morning. He had written a note bidding his fellow workers good bye. Friends say he had worried concerning religion.

MILITARY ALLOTMENTS  
WILL CEASE ON JULY 31

Washington, March 25.—Military allotments and allowance under the war risk insurance act will expire automatically on July 31, Congress has decided. The ruling was based on the resolution adopted by the last congress repealing most of the special war time acts. War risk insurance bureau officials were unable to give accurate figures today concerning the number of soldier, sailor and marine allotments which would be affected, but they said that most men still in service both at home and in the American army or navy were maintaining the allotments to their relatives and that the government likewise was supplying an equal amount. Mr. Warwick holds that the resolution repealed the war risk insurance act which was passed in 1917 and that subsequently the allowance made by the government to equal allotments of members of the military force must cease after July 31.

THOUSANDS DIE  
DAILY IN CHINA

Famine Takes Dreadful  
Toll, Reports to Relief  
Organization Show—50,000  
Die In 16 Counties.

Peking, March 24.—Famine which holds the provinces of Honan, Shensi and Chihli in its sinister grasp, is reaping a dreadful harvest, according to reports received at the headquarters of the international relief organization in this city. In 23 counties of Honan the average daily death rate on March 15 was 1,000, while deaths from famine in the six northern counties of the province averaged 300 daily.

In 16 counties in Shensi there has been 50,000 deaths from starvation since the beginning of the famine, 20,000 of these deaths occurring in Fuping county.

Funds amounting to 3,250,000 gold taels (nearly \$4,550,000), including 1,000,000 taels from the American Red Cross, has been appropriated to all famine districts by the advisory committee of all working organizations in the stricken regions.

The committee is informed the American committee for the China relief fund, headed by Thomas W. Lamont, is doing its utmost to provide food for 6,000,000 persons, and assertion is made that there are 3,000,000 more destitute, not counting those requiring economic assistance in recovering their normal pursuits.

It is estimated by the advisory committee that 4,000,000 gold taels will be required to carry on the work of feeding the starving people, although this amount might be put to 1,500,000 taels if corn should arrive from America by the last of April.

The American Red Cross is feeding 150,000 persons, employing them to work on the roads.

## BALL PLAYER DIES.

South Bend, Ind., March 25.—Harry Arndt, 42 years old, former third base man for St. Louis and Cincinnati National and Louisville American association clubs died here today of tuberculosis.

GOVERNOR MAY  
ADJOURN HOUSES  
OF LEGISLATURE

Two Branches of Assembly  
Can't Agree On Date  
To Quit.

Constitutional Power May  
Be Exercised For First  
Time In History.

Columbus, March 25.—Failure of the house and senate to agree upon a date of final adjournment of the assembly may result in Governor Davis adjourning the body it was said today. Under the constitution, the governor is empowered to declare the legislature adjourned when the bodies are unable to agree, but it was never before been necessary for the governor to exercise this right. Members of the house adjourned this morning until Monday, after holding a brief session. They will come back next Monday and after finishing important bills expect to recess until April 11 in order that the state may have time to catch up. Senate leaders have refused to agree with the house leaders on a date for final adjournment.

Among new measures introduced today was a joint resolution by Representative Harry Silver of Preble county, proposing that the state of Ohio join other states in the great lakes. St. Lawrence Tidewater association, which has been formed for the purpose of making improvements in the St. Lawrence river which will make the lake accessible to ocean going commerce. The Silver resolution requests Ohio congressmen and the two United States senators from Ohio to co-operate with other states in this movement. It is pointed out that it will bring the river at least 400 miles closer to the markets of the world.

A bill introduced in the house this morning by Representative Dodge of Union county would repeal salary increases granted by the last legislature to judges of the supreme court of appeals and common pleas courts.

Passage of the Schrimper minimum wage for women bill by a vote of 77 to 27, in the state senate yesterday was the first legislative victory for women organizations since their enfranchisement. They have been working for weeks on the legislature to pass the measure and will now turn their attention to the senate, where it is said to have a good chance of passing.

Organized labor rejoicing today in the tabling in the house late yesterday of the Burns bill which, if enacted into law, would have permitted private liability insurance companies to compete with the state-owned compensation fund in the insuring of employees.

The Morris Christian bill was tabled in the house yesterday by a vote of 77 to 30.

The house passed the emergency bill to increase the state bond limit and require payment of a 50 cent flat license fee. A similar bill has already passed the senate.

The senate finance committee was in Cincinnati today where it is inspecting state property being encumbered by Cincinnati officials.

JAP NAVY ONLY  
FOR FAR EAST

Vice Admiral Declares  
Building Program Is Not  
Made to Compete With U.  
S. Construction Plan.

Tokio, March 25.—Assertions that the Japanese naval program was being followed for the purpose of competing with the United States navy, were denounced as "preposterous and untrue" by Vice Admiral Tomosaburo Kato, Japanese minister of marine, in an interview with the Associated Press here today. He declared Japan was not trying to compete with the American navy, and that the Japanese naval program had been formulated so that the island empire could be defended against any emergency arising in the far east alone.

During the course of the interview the minister emphasized the fact that Japan's project to have a fleet of eight battleships and eight battle cruisers, not over eight years old was not necessarily irreconcilable. He indicated that if all the naval powers would agree to a "naval holiday" he would be willing to enter such an engagement and would not insist upon the completion of the naval programme projected by the government.

"The Japanese government," Mr. Kato said, "joined the League of Nations and is doing so supported the principle of the reduction of armaments. When we increase an armaments race, we are in danger of armament reduction. I will be only too glad to cooperate heartily with other nations to give effect to this principle."

WILSON SUFFERS ACUTE  
ATTACK OF INDIGESTION

Washington, March 25.—Former President Wilson suffered an acute attack of indigestion today which caused him to call for medical aid. It was said, however, that he had entirely recovered an hour after the attack.

Dr. Sterling Ruffin who attended Mr. Wilson in the White House, stated that serious illness arrived at the ex-president's Washington residence this morning in answer to the calls, and upon leaving at 2:30 this afternoon said Mr. Wilson had so completely recovered that he was able to eat a light lunch.

## RAY ORRIS IS KIDNAPED.

Cleveland, March 25.—Police in Ohio and western New York and Pennsylvania cities were notified today to look for Ray Orris, 37 years old, who was kidnapped by a western band of desperadoes of the girl say the kidnappers, who were armed with automatics, pushed her into the car and drove away they could not find.

## THOUGHT PLANE WAS BIG BIRD

Nicaraguan Natives Frightened When Seaplane Is Driven Down By Hurricane—Hid In Dense Forest.

San Juan Del Sur, Nicaragua.—There are even yet in remote parts of the world people who never even heard of an airplane. Some of these people live in the little Nicaraguan village of Gilete, where the naval plane NC-6 was forced down by a hurricane while on its flight from San Diego, Cal., to Panama along with about a dozen other planes in January.

They thought the NC-6 was a huge bird, an albatross, which had come in search for some unfortunate mariner who had offended it and they hid in the woods for several hours.

Near the little cove where the NC-6 came down are two ranches. After The Associated Press correspondent had found the missing NC-6, he visited one of these ranches and asked the women if they had seen the plane arrive. One of them replied:

"No, Dios, I should think so. At the sight of the horrible thing skipping over the white caps, without flapping its wings, and spitting fire from both sides of its body and roaring like 20,000 bulls, we all took to the timber, where we remained for about four hours. We only came out when we saw a foreign gentleman passing near where we were hiding."

The women added that before the great war, when sailing ships used to visit the Nicaraguan coast to load mahogany and cedar, the captain had told them of a wonderful bird called the albatross that was an inhabitant of the Southern seas and they supposed this bird had come after some offending sailor.

### EMIGRANTS CHEATED.

The need for some kind of supervision over unauthorized steamship ticket agencies operating among illiterate emigrants, is illustrated by the following item in "The American News," a Russian New York Daily: "We have received a letter from three comrades who have left for Russia from Baltimore. They all bought steamship tickets to Libau from a New York agent. Upon arrival at London, they discovered that their steamship tickets are good only to Hamburg. They had to buy additional tickets to Libau."

## Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

## WATCH SHIPS FOR ILLCIT DRUGS

### New York Officer Claims Back of Trade Is Broken By Drive in Which 1000 Are Arrested.

New York, March 25.—Claiming virtually to have broken the back of the illicit drug trade in New York City, in a four months' drive, Special Deputy Police Commissioner Carleton Simon declared war on an international ring which he charges is responsible for the illegal distribution of dope throughout the United States.

In the anti-narcotic drive here more than 1,000 arrests have been made and millions of dollars worth of drugs seized.

Although the illegal drug trade has been broken Dr. Simon asserted the work of his bureau is not only to continue here but is to be enlarged to meet the problems in other big cities in America and abroad.

By means of an international bureau of criminal records being established, all data concerning drug criminals is to be ready for cities where "leads" pointing to New York might be uncovered, the commissioner said. Recently he added, Antwerp police had requested information concerning an alleged leader of the international ring. It was shown by means of information furnished by New York that the man had police records in London, Paris, Brussels and New Orleans and had served sentences at various places aggregating 20 years.

"We made more arrests these past four months than in any 24 months heretofore," said Dr. Simon, who was selected to direct the drive because of his medical training. Every wing of the metropolitan police department was coordinated, working in conjunction with the Federal agents. In consequence, "the fear has been spread through the army of vendors."

Before he assumed his job, Dr. Simon said traffic in drugs in New York had reached an amazing stage. His first move was to seek to clean up New York then aid in solving the drug vend-

ing problem in other cities—a resultant evil of the situation. Squads of special men were spread to all parts of the greater city. Expert men being picked to patrol the lower East Side where vendors were using school children as "go-betweens" to supply addicts.

Constant watch was kept on incoming ships where alleged smugglers were resorting to all manner of tricks to "sneak" the narcotics into this country. Arrests of persons on the docks revealed drugs hidden in artificial arms and limbs, in sausages and clothing. Once the anti-narcotic forces were working systematically and arrests became frequent, the situation soon gave evidence of being cleared up.

The almost daily raids in the city reached a climax recently in Brooklyn when agents entered an apartment, arrested several persons and seized drugs worth thousands of dollars. The great majority arrested were "curbstones" vendors.

### INCUBATOR EGGS NEED PLENTY OF FRESH AIR.

"Eggs are fresh air friends," says E. L. Dakan, poultry specialist at the Ohio State university. "To successfully hatch eggs in an incubator," he says, "it is necessary that an abundance of fresh air be supplied at all times. If the incubator is placed in a room with two windows open on opposite sides, this will solve the problem of ventilation. Thousands of chicks fail to get out of the shell because about the fifteenth to eighteenth day of incubation they become poisoned by the gases which are thrown off from their own development. The only way to save the chicks is to get the gases out of the incubator room."

"The cellar is by no means an ideal place for an incubator because it is generally poorly ventilated."

## STAMP MYSTERY HAS VIENNA POLICE PUZZLED

Vienna.—A "Blue Mauritius" stamp mystery has been turned over to the police for solution. The story goes that a group of men were discussing stamp collections in a coffee house in the industrial suburb of Wiener Neustadt when this dream of the philatelist was mentioned.

A car painter in the crowd asked why it was so valuable and when told replied: "Why? I had an ancestor in Mauritius who wrote to the family regularly. We have bundles of his letters." He went to his house and when the envelopes were examined one of the rare stamps was found.

The local philatelic society pronounced it genuine whereupon the finders new friends got a motor car and took him from place to place to sell it.

He admits he does not remember just what happened, but when he finally refused an offer of several hundred thousand crowns his stamp was given back. He took it to experts who said it was a forgery. Stamp experts are assisting the police in uncovering the mystery.

The "Blue Mauritius" stamp is one of the world's philatelic prizes and commands a high price among stamp collectors throughout the world. One of the explanations of its rarity is to the effect that almost the entire issue of blue stamps sent from Great Britain to Mauritius was lost in a storm.

## ITCHING SKINS

Don't pick or scratch an itching, fiery skin, Eczema, Rashes or Pimples. It's dangerous, and may cause serious infection or spreading of the condition.

Instant relief may be quickly obtained by using Geo. Wormwood Balm. This fragrant antiseptic Wormwood treatment takes out the fire and stops the itching immediately. Leaves a delightful cooling sensation that quickly soothes and comforts the rough, sore, irritated skin. One trial will convince you. Any good druggist can supply you with Geo. Wormwood Balm and you can have your money back if you are not satisfied.—Advt.

## TO REDUCE DANGEROUS VARICOSE VEINS

People who have swollen veins or bunches should not wait until they reach their resting point, which means much suffering and loss of time, but should at once secure from any reliable druggist a two-ounce original bottle of Moone's Emerald Oil (full strength.)

By using this powerful, yet harmless germicide treatment improvement is noticed in a few days and by its regular use swollen veins will return to their normal size, and sufferers will cease to worry. Moone's Emerald Oil treatment is used by physicians and in hospitals and is guaranteed to accomplish results or money returned.

It reduces all kinds of enlarged glands, garters and wens and is used exclusively in many large factories as an unfailing first aid to the injured antiseptic. Generous sample on receipt of 15 cents, silver or stamps. International Laboratories, Rochester, N. Y. Your druggist or Erman's Arcade Drug Store can supply you.

## SORE THROAT QUICKLY RELIEVED

Gargle or Spray With Hydrosal Stops Inflammation Almost Instantly and Soreness Vanishes.

Local physicians and nose and throat specialists have been using Hydrosal for relief of all forms of sore throat for years, and they have found it more satisfactory than anything they have ever used to furnish practically instant relief according to their own statements.

Hydrosal liquid used as a gargle for sore throat stops inflammation and irritation almost instantly and the raw soreness in the throat and roof of the mouth quickly disappears.

Throat Specialists Use and Recommend Hydrosal for Sore Throat and Tonsillitis

In tonsillitis Hydrosal quickly checks the inflammation of the tonsils, reducing the swelling and eases the pain. Hydrosal is put up in convenient form for home use and with full directions for the treatment of sore throat, tonsillitis, etc., and is sold and recommended by Dr. W. Smith, W. A. Erman Arcade Drug Store, P. J. Evans, Mykran's Drug Store and most other druggists, in the popular 25c and 50c size. We will send a sample bottle of Hydrosal for 10 cents in stamps to cover the cost of postage and packing, just to show you what wonderful relief it will give in your own case. Address 5415 Hydrosal Laboratories, Cincinnati, Ohio.

### Everyday Etiquette

"Should I leave a card or call on my hostess after a dinner invitation?" asked Jack.

"Men are held exempt from making calls when they have wives or mothers to leave their cards, but a young man should call on his hostess after a dinner invitation," said his uncle.

There are said to be 3484 spoken languages or dialects in the world.

## Milady's Boudoir

### Mood and Rest.

Moods that are uncomfortable and a strain on beauty can be overcome by rest. To acquire perfect rest settle yourself in a corner of the couch or an easy chair arrange your feet and arms and indeed, your whole body until you feel comfortable from head to foot.

It is absurd and very uncomfortable for other persons for a woman to indulge in moods in public. Almost every woman has moments when she could scream from sheer irritability, but will power to control these moments should be exercised to the extreme of determination.

When attempting to rest, compose yourself and sit in this position motionless for five minutes. Don't do a thing but take long, chest developing breaths. Whether you close your eyes or not makes no difference, but don't move. At the end of five minutes you will feel

much rested and, if possible, you should do this five or six times a day.

The nervous woman who feels inclined to scream if the door bangs or some thing drops suddenly, and the girl who cannot feel irritable, needs five minutes of absolute relation in a darkened room at least twice a day.

On nervous days, when you feel like flying out of the window, try this exercise. Stand erect, hands clasped in front and head bowed. Expel all air from the lungs, then inhale deeply through the nostrils. This will, in a few moments, cause the nervous feeling to completely subside and, incidentally, it is a fine exercise for reducing a double chin.

Overfatigue, whether nervous physical, will cause disturbed rest. With dreaming and starting up when asleep. Children should not be allowed to overtire themselves at games or at play or to take up mental work at school that is too much for their health and strength.

Night terrors in children are not always caused by fear and nervousness. Heavy meals late at night are a frequent and fruitful source of trouble. Irregular and improper feeding, indigestible meals and indulgence in sweets all act by upsetting the digestion and causing reflex irritation of the brain and nervous system.

In the treatment of night terrors a simple diet should always be tried first, as digestive disorders are often associated with this sign of ill health. Feed regularly, give no snacks, sweets and no heavy meal at bedtime. For children of six or seven years, try the effect of stopping the usual meat meal and rely on bread and milk, porridge, eggs, fish and simple nursery puddings.

**Mrs. Rose Ferry.**  
Thomas Ferry was called to Pittsburgh by the death of his sister, Miss Rose Ferry, 27. Her death occurred Monday night at her home there.

Miss Ferry formerly made her home here with her brother, and was employed at the J. J. Carroll store for three years.

Two years next July Miss Ferry left Newark for Albuquerque, New Mexico, for the benefit of her health.

Funeral services were held yesterday in Pittsburgh.

### ONE OHIO TOWNSHIP HAS NO SCRUB SIRS.

Ohio has at least one township which has no scrub sires. It is Jackson Township, Hardin County. This is the first one in the state which has come to the attention of officials at the Ohio State University, who are conducting a campaign for the limitation of the scrub stock.

Exclusive of registered females, there are 63 purebred sires including hogs, sheep, cattle and horses, in Jackson Township.

### AMERICA PRINTS CZECH BILL.

A new Czechoslovak 100-crown note is just off the press of the American Bank Note Company, and is said by American critics to be the most artistic piece of work ever done by the company for a foreign government. The face of the note contains at the left a conventional design with the figures "100" on either side of the heraldic Bohemian lion rampant. At the right is a symbolic female figure representative of the Western Slavs, with a decorative background made up of Hindle leaves together with typical peasant ornaments of the Czechs and Slovaks.

### CHECK JUGOSLAV OUTFLOW.

Jugoslav emigration from America has been practically stopped by an order from the Yugoslav government, which prohibits the issuing of passports to its subjects by consulates in the United States. The consulates may still receive applications for passports, but they now must be forwarded to the central government in Belgrade, which alone may authorize the issuance. It is supposed that the new ruling is of only temporary character.

### KING VISITS ICELAND.

Copenhagen.—The King of Denmark, who is also King of Iceland, will visit Iceland, Greenland and the Faroe Islands in the coming summer with the Queen. This will be the first time any Danish King has visited Greenland.

This government still owes France money on the Louisiana purchase and other old transactions. A further search of treasury records was made, he said, and failed to reveal any evidence of unpaid obligations or anything to indicate that the records themselves were incomplete.

# ATTEMPTS TO BRIBE OFFICER, IT IS CHARGED

Cincinnati, March 25.—After being bound over to the federal grand jury yesterday on the charge of having liquor in his possession, John A. Lass, saloonist, was arrested on a warrant charging him with attempting to bribe a prohibition officer. It is alleged that Lass offered \$300 to Prohibition Agent William Wheeler not to prosecute him. Lass pleaded not guilty and his bond was set at \$2,000 by United States Commissioner Hurley.

# PORTSMOUTH MILLS WILL REOPEN APRIL 3

Portsmouth, March 25.—Eight sheet mills at the plant of the Whitaker-Glessner company here will resume April 3, it was announced by company officials here. The mills have been idle for several months. Resumption of the sheet mills means reopening of some other departments of the plant and will give employment to approximately 750 men.

# SUES WOOD TREASURER TO RECOVER \$110,000

Chicago, March 25.—Colonel William Cooper Proctor, manager of Major General Leonard Wood's campaign for the Republican presidential nomination and contributor of \$500,000 to the campaign expenses yesterday filed suit to recover \$110,000 from Major Albert A. Sprague of Chicago, treasurer of the campaign.

## MECHANIC MAKES A DISCOVERY

Robert Spencer, living at 434 Tibbitts Ave., Springfield, who is a drill hand with the Kelly Motor Truck Company at their plant, Burke and Kenton streets, in telling his experience with Redex, the new herbal remedy, says: "I have had a bad case of stomach trouble for the last four years, most of which time I felt unfitted for work. I could scarcely eat anything and the smell of food upset me. I was weak and all run down. Could not sleep at night and was extremely nervous. Last winter I had a spell of influenza which set me back worse than ever. I doctored myself and took everything I heard of for my trouble. I almost despaired of getting well again. I started taking Redex recently and must truthfully say that I have felt a whole lot better in this short time. I now have a hearty appetite and food agrees with me. I have slept well and not only that, I have gotten up in the morning feeling refreshed and ready for work. As a matter of fact I have not missed a day's work since taking Redex. Before that I lost time every week."

This is not an unusual statement. Hundreds of people suffering from stomach and liver trouble who are nervous, weak and run down, send in statements equally as convincing as the above. Redex is on sale in Newark at Erman's, Evans' and all leading drug stores.

## FORD'S PAPER BANNED BY THE CHICAGO POLICE

Chicago, March 26.—Sale of the Dearborn Independent, a publication issued by Henry Ford, on the streets of Chicago was prohibited yesterday under police order, following a conference between James W. Breen, acting corporation counsel and Captain Patrick Lavin, in charge of the central police station.

"Captain Lavin informed me," said Breen, "that the anti semitic attitude of the paper which was being sold in competition with a Jewish newspaper, recently caused a fist fight which threatened to grow into a riot. The city's action was taken under its general police powers with a view to keeping the peace."

## FRECKLES

March Worst Month for This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in March, but happily there's also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine—double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.—Advt.

OF NEWARK

76 YEARS OF SERVICE.

THE wealth of the soil is intrinsic, and it is from the soil that America draws her greater strength. Her agriculture is as varied as her climate. East, west, north, and south a diversity of crops spring from her fields and farm lands—crops that give employment to millions and food to people beyond the seas.

Regardless of how the pendulum of prosperity swings, the world must continue to be fed, and America will be called upon with increasing urgency to contribute her share to the provisioning of mankind.

Concerns whose business it has been to develop and market the agricultural resources of this country have received the close co-operation of this bank for a period of 76 years.

ICE PLANT IS IN OPERATION

Complete Overhauling of Property Will Increase Efficiency and Output—First Ice Made Thursday.

The plant of the Newark Ice & Cold Storage company at the corner of St. Clair and Clinton street, which has been shut down since December 1, has resumed the manufacture of ice and will be in business this summer supplying consumers of the city. The company ice is distributed through William Zentmyer.

R. E. Jones, secretary of the company, has been placed in charge as manager by the board of directors and under his direction the plant has been thoroughly overhauled and put in first class shape. The pipes for the ammonia have been gone over and repaired and the leakage in the brine tanks repaired and a great saving in coal has been made by the installation of a heater for the water before it is admitted to the boilers. Exhaust steam from the engines is used to heat the water.

The capacity of the plant will be between 75 and 80 tons a day, much of this ice being shipped out in carload lots to neighboring towns and even to other states. A new charge of ammonia has been placed in the pipes and ice was first produced yesterday. Production of the 400 pound cakes which take 24 hours to freeze is expected to be continuous from now on.

The distilled water which is used in the manufacture of the ice is run through three tanks to completely eliminate the bubbles and produce clear ice.

The cold storage plant, which is the only one in town houses everything from fruits and vegetables to eggs, cream and flowers. Local florists to preserve their surplus flowers, particularly roses, put them in one of the rooms, which is maintained at a constant temperature of 34 to 36 degrees in order to keep them fresh until demand moves them.

William Zentmyer stated this morning that reduction to large users of ice had been made this spring and that he expected to announce a reduction to private consumers in the very near future. At the present time the retail price of ice is 70 cents a hundred.

VACATION GAMES TO FEATURE Y WORK

J. R. Duxon, boys' secretary at the Y. M. C. A., has returned from Baltimore where the death of a relative detained him longer than expected. Duxon has returned in time to carry out the plans for summer tournaments and a hare and hound race for the spring vacation starting today.

The game tournaments will be run on the same plan as the events of last year. The events are for members only and prizes to the winners in all events will be awarded. Details of the hare and hound race will be announced later as they have not yet been completed.

TEXAS RESIDENTS SEEK NEW OUTLET TO CITY

The Texas residents held a Civic Improvement meeting in the Texas school house last night, the following officers were elected: President, W. P. Holton; vice president, Mrs. Burns Hughes; secretary, F. C. Wagner.

A committee was appointed to make an investigation for another outlet to the city, and it was also considered having the street widened.

Another meeting will be held Thursday evening at 7:30 o'clock in the Texas school house.

WAR TIME ENTERTAINERS GIVE LEGION PROGRAM

Mrs. Lillian S. Metcalf and her eight girls of Columbus in conjunction with the Boy Scout orchestra, proved to be a great success at the social meeting of the Newark Post of the American Legion last night at the club rooms. The girls gave selections of popular songs and old favorites and their performance pleased those present so much that they were encored repeatedly.

Misses Dorothy Stevens and Linda Furniss sang solos and Misses Dorothy Stevens and Lucile Ruppertsburg gave a duet selection. The accompaniment for the party was Mrs. Helen Offenburger.

The double quartet, four girls, with a Patriotic League glee club throughout the war in entertaining the soldiers and this present organization is an outgrowth of the work in the glee club. Members of the party were Misses Mary Snyder, Tehanni Krug, Hertha Messersmith, Myra Todd, and Mett Graves.

Following the program of songs and music the meeting was turned over to Lee Moore who had charge of the kitchen arrangements. A lunch of ham and cheese sandwiches, ice cream, chocolate eclairs and coffee.

CATHOLIC CHURCHES HAVE SPECIAL SERVICES

Solemnnity marks the Holy Week services at the Catholic churches of the city.

The pre-Easter celebration started Thursday morning at 8 o'clock when processions were held in both St. Francis de Sales and the Blessed Sacrament church following the high mass. Holy Thursday is celebrated as the day on which the Lord's supper was held and Christ instituted the Holy Eucharist, or Communion. The exposition of the Sacrament will continue throughout the day.

Good Friday services started at 8 o'clock this morning when services of the cross were conducted. No bells are rung, or music permitted in the churches today which signifies the mourning which the church recognizes.

At 3 o'clock Friday afternoon the stations of the cross were read at St. Francis de Sales church and will be read in the evening at the Church of the Blessed Sacrament. Easter Saturday morning at 8 o'clock Holy Water and oils used throughout the year will be blessed and the alleluias will be sung for the first time. The Lenten season ends at noon Saturday.

Special Easter musical programs will be given in both churches Sunday morning.

SPECIAL SERVICE AT ST. PAUL'S CHURCH

The Passion of the Lord Jesus Christ is being observed by the people of St. Paul's Lutheran church in special services during this week. The pastor, Rev. George Bohon Schmitt, D. D., has been preaching each night during the week on some phase of the Bible.

The services on Good Friday began with an early Mass service at 6 o'clock. Each year more and more of the members and friends have availed themselves of the benefit derived from this early service.

At 7:30 o'clock the preparatory services preparatory to the celebration of the Holy Communion on Easter will be held. There will be no services on Saturday night.

The Easter services will begin with an early Mass service at 6 o'clock. The Holy Communion will be celebrated by those unable to attend either the 10:30 or 7:30 services.

The Bible school will hold its services promptly at 9:15 o'clock. At 8 o'clock in the afternoon the sacrament of baptism will be administered to children.

All services on Good Friday will be conducted by the new time. The services are all open to the public.

BANQUET WINDS UP Y CHURCH LEAGUE

Officially closed is the Y Church Basketball league. The banquet last night at the Y. M. C. topped off the season. Forty-five players and spectators were present at the "feed."

The room was decorated in victorious colors and the men wore colored paper hats. The victors from the boys' division furnished the music.

The toastmaster of the affair was A. S. Stephan, who called on a number of the leading lights for impromptu speeches. Paul Heston, who chaired on "How it feels to win," Louis Spellman told the crowd "How it feels to lose." Ernest Johnson was called on for a few suggestions "On how to make next year's league better."

Physical Director Allen presented the Championship East Main team with the league banner. Captain Thorp responded with the team's thanks.

The winners made a hit on the program when they entertained the feasters with several musical numbers. The whole affair was successful and the fellowship is indicative of a good season ahead for next year.

CONVENTION AT HANOVER

The annual township convention was held in Hanover township, Sunday at the Presbyterian church, Hanover.

TROUT RECEIVED FOR THIS COUNTY

Government Hatchery Sends Shipment of Young Fish to Stock Streams Here.

The Licking County Fish and Game Protective association received a shipment of brook trout today from the government hatchery at Northville, Michigan. These trout will be placed by the association immediately in the two streams in the county best suited for trout. This shipment is the first result of over 20 requests of the local association for fish for this county.

In addition to the trout a shipment of small mouth black bass has been promised for this county to be shipped and placed in local streams later in the spring.

BROWNSVILLE CHURCH

The M. P. Church met Sunday and organized a Sunday school. The officers are: Superintendent, Harvey P. Kreager; ass't superintendent, C. D. Sanis; secretary, Frank Jones; ass't secretary, Charles Watkins; treasurer, Miss Kate Pyle; grade roll superintendent, Mrs. Lettie Jones; librarian, Howard Sanis; organist, Mrs. Florence Kreager.

Sunday school will be held every Sunday at 10 o'clock, eastern time, prayer meeting every Thursday evening at 7:30 o'clock.

## GRANVILLE MAY ADVANCE CLOCK

**Council Meets to Take Action Which Set Clocks With Those of Newark and Columbus.**

(Special to the Advocate.)  
Granville, March 23.—The town council will meet tonight to discuss the matter of changing the time. It is probable that the clocks will be advanced one hour in Granville, because with the time changing in Columbus and Newark it would be confusing to people in the village to be using a different time schedule. The council will also discuss the subject of paving Granger street from Broadway to Cedar street. This street is always muddy and it would be a great convenience to country people and school children to have this street paved as well as to the property owners.  
The public schools close today for one week of Easter vacation. The school time will probably be changed at the beginning of the spring work April 3d.  
Mrs. F. A. Ray returned from Cincinnati Wednesday evening where she has been attending grand opera and visiting friends for a week.  
Mrs. Brumback entertained at dinner Wednesday evening at Shepardson commons the following guests: Rev. and Mrs. Houf, Fred and Mrs. Detweiler, Mr. and Mrs. Crosey, Miss McNeil, Miss Farrai and Dr. Lateurette.  
Funeral services for Mrs. Edward Wise, daughter of Mr. and Mrs. Lou Edwards of Silver street, are being held in the Methodist church this afternoon.  
The opera, "Orpheus in the Underworld," written by Gluck, will be produced here April 22 and 23 by the two musical organizations of Denison, Phi Mu Alpha and the Phi Kappa Psi.  
The English version of the opera will be used, and the stage setting will be realistic. The university orchestra has been practicing for weeks on the orchestration. This opera is a classical musical drama with exquisite music in its delicacy and grace and an interesting and affecting story.

The Printers went wild in last night's opener and in the first half run up a score that bid for a chance at the record score. Their second half did not show up as well and they went wide of the league game record. But at that they registered the largest score yet made by the type team of either season. The Monette squad was at sea most of the scrimmage—a heavy wind blowing but no sails to get in the race. The game ended 58 to 10 with the Printers satisfied they had a good time.

## INDUSTRIAL LEAGUE SEASON NEARS END

Next week's games will be the second last in the regular schedule in the Industrial league. This means that Helseys and the American Bottle teams now in first and second places in the league will not clash again in the regular schedule of the league after next week. The playing last night showed Goodwin a big addition to the bottle squad. Helseys will be forced to the limit to keep this north end team from taking away the much coveted honor going through the season without defeat.

The Printers and the Burke Golf team play a preliminary to the Helsley-American Bottle fracas.

**BASEBALL.**

The hold baseball has on the American people is one of the most interesting features of life in this country. And that hold is most strikingly illustrated by the crowds that gather in the great parks of the major league teams. The real feeling of the people toward their favorite sport, is best seen among the multitudes who gather in tens of thousands of towns during the afternoons to see their home teams contest for local honors.

No community program is complete unless it has one or more good ball teams, with various local interests competing against each other and one picked team to represent the town in competition with its neighbors.

A good series of ball games keeps people at home, provides wholesome diversion, it gives athletic young men physical development. The merchants ought to take hold and put the local game on a good basis, as a matter of town boosting. It will draw in visits and give the town a reputation as a live one.

To make baseball a success, there must be a good spirit of home support. Many promising teams quit each year early in the season, depressed by incessant knocking by spectators. When fellows are trying to do their best, and nervous over the effort in public, it does not help when the lazy bleachers yell "Take him out, he's rotten." Then there are some baseball fans who get sore on a team unless it wins nearly all the time. You can't build up a ball team that way. Newark should have a lot of baseball played this summer, with a chance for all young men who like the game to get into some regular series of afternoon contests. It is hoped that the teams that afforded entertainment for thousands at White Field last season will appear on the scene again this year.

**HOME OPPORTUNITIES.**

A certain well known man started as a country store keeper. He is still one, but he operates a chain of stores and does \$5,000,000 of business in a year. Some one asked him what he considered was the secret of his business success.

"It was the faith I had in the possibilities of this business," he replied. A great many people after they have been in business a few years, get discouraged at their slow progress. They think if they changed over into some other line, or went to some other city, they would do better. Then if they made the change, they find it takes them about five years to get where they were in their first location.

It is a mighty good idea for people to look around carefully in their own environments, and think how they can use the experience and acquaintances they have already gained. When they change occupations and locations, they throw away the investment of years of effort and experience. There are plenty of opportunities in Newark and the surrounding country, for these ambitious for larger success.

**THE NEEDS OF THE ARMY.**

Congress has debated earnestly the question whether the United States army should consist of 150,000, 170,000 or 200,000 men. It makes little difference under present conditions, which of these figures is determined upon, except that the people are not in a mood at present to pay taxes on a large military establishment.

The main point is that the force shall be capable of rapid expansion, without having to change over its entire system thereby causing delay. An army of 150,000, with a large reserve of men who had had training, and with a system for calling these men into service promptly in case of emergency, and with a well trained National guard, would be a better defence than a much larger regular army without the backing of a well organized reserve.

**COMMUNITY SCRAP HEAP.**

While out of town on a motor trip some weeks ago, the attention of the writer was called to the way a certain town had been disfigured. It was a

pretty place, with every appearance of progress and enterprise. But it had made one fatal mistake. In allowing a prominent street corner to be used as a public dump. The land at that point was low, so it was probably thought that the hole would have to be filled in to make it available for house lots. But this would take a long time. This spot, which naturally was pretty swamp land with luxuriant vegetation, was disfigured with tin cans, ashes, and all refuse of some thousand homes. Everyone who went through must have gained an unfavorable impression. When will people learn to establish dump heaps out of sight, if necessary screened by thick evergreen trees? By the way why not clean up and beautify the banks of the North Fork and Raccoon creek instead of using them as a dumping ground.

A reader of the Advocate asks whether a centipede can walk only one-tenth as fast as a thousand legged worm. The Advocate doesn't know. We advise the reader to address the query to Bob Rider, in care of the Ohio State Journal, who has doubtless walked up the street many times behind both, and may be presumed to have given their walking apparatus careful attention. He always does.

LXV.—Three Letters.

Edith came down to dinner wearing the jade green gown, as Nancy had hoped. The orchids were pinned to her corsage.

Nancy uttered a little murmur of admiration. Dr. Langwell made no comment, but he looked his wife over with a complacent air which said: "This is one of my possessions, and it is good in my sight."

Though Nancy would have found his glance irritating, Edith blushed under it. She was like a marble statue come to life. There was a pearly translucence to her flesh as though warm rosy life flowed under the alabaster surface.

"Letters, Nancy."  
Edith gave her a handful of mail. "I quite forgot to mention them to you when I came in this evening. They came to the town house in the morning post."

Nancy glanced at the superscriptions casually. There was Peggy Lewis' dashing scrawl, and Connie's bold individual hand.

She groaned, and the doctor looked at her enquiringly.

"Are you so psychic that you can sense bad news without even opening your letters?"

"It's an art married women acquire," she replied with a smile. "If you'll excuse me, I'll learn the worst at once."

As she picked up Connie's letter, another which she had not noticed, slid to the floor.

The doctor retrieved it, but before handing it to her, he glanced coolly at the address.

"A billet doux from your major," he said, restoring it to her with a smile. She took it, managing to hide her surprise.

More than ever was she amazed by this strange man, who seemed so cultured and yet could be guilty of such amazing breaches of etiquette.

With a murmured excuse, she tore open Connie's letter.

"Dear Nancy," it began. "I think you ought to know what is happening at home. Those odious relatives of Peggy Lewis are simply wrecking your apartment. I dropped in for tea yesterday at Peggy's express invitation by which Connie sought to square herself for giving rein to her ungovernable curiosity."

"And I found the place in chaos. All the furniture in the drawing room has been moved to make way for a drawing board and a table of messy paints. The elder Harding thinks he is an artist—and after looking at his work I think he is a fool."

"I caught his wife trying to cover up the mark of baby fingers on the tapestry that hangs over the sofa. Evidently the Harding infant has been allowed to indulge its taste for bread and butter in the drawing room during its visits to the grandparental domicile."

"Poor Semiramis was no where to be seen, and after a thorough search I found the poor darling literally cowering in the bottom of the linen closet. As for Anna—all that remains to make

**Gardening.**  
When blue birds singing sweet and clear  
Proclaim that gentle spring is here,  
I'm goin' to resurect my hoe,  
My spade and shovel, don't you know.  
Then straight into my garden a plot  
I'll go to dig and delve a lot.  
And thus prepare, with seeds and things,  
For blessings which the good earth brings.

I've tried this self-same stunt before  
And worked until my back was sore.  
But somehow all my garden truck  
Would join the weeds and run amuck.  
But I have read in story books  
That one can't always go by looks;  
Also if you should lose why then  
It's worth your while to try again.

Since this is true you bet your neck  
My garden will not be a wreck.  
Because I'll teach my wife to hoe  
And kill potato bugs and so.  
When from my little home I fare  
She'll watch the plants with tender care.  
And manure the aches and ills  
Of all the things that grow in hills.

Then some day in the summer-time  
When human joys will upward climb,  
And all the bees and birds that croon  
With nature seems to be in tune,  
The will and I will go straight way  
To see our plot and I will say,  
The while I kiss her once or twice,  
Gee! aint our garden looking nice

**BLANCHE RING AND CARL WITH "CENTURY MIDNIGHT WHIRL."**  
At the Auditorium tonight will be presented the "Century Midnight Whirl," designed wholly to promote merriment and jollity and happiness and good cheer, and that it fulfills its aim is proven by the fact that for three years it drew all fun loving New York to the roof of the Century theater.

The "Century Midnight Whirl" is a distinct novelty. It is unlike anything heretofore seen at a regular theater. It is what is known as a roof show, a spirited combination of singing and dancing and specialties and novelties which has been described as a "super revue." It has all the elements that popularize revues and a great deal more that no revue ever has possessed. John Henry Mears is sending the "Century Midnight Whirl" here with a notable all star cast of public favorites headed by Richard Carle, Blanche Ring, Charles Wingerling who until recently was the star of the "Follies," Winona Winter, Jay Gould and many others, and there is the famous "Millionaire's Chorus." This chorus is distinguished for beauty and grace and the ability of its members. Each girl is talented. It has been said that no other group of girls ever has had so many accomplishments. New York made a great deal of this chorus. The "Century Midnight Whirl" is a swift succession of song and dance and specialties and colorful effects of comedy, music and spectacle. It was created wholly to entertain. Seats now selling.

**ONE OF BEST SCREEN STORIES OF THE YEAR.**  
After the theater-going public has seen Edith Roberts as a South Sea Island

maid in "The Adorable Savage," as a Creole beauty in "White Youth" and as a South American girl in "The Fire Cat," they would appreciate seeing her as herself—a young American girl of today. In her latest photodrama, "The Unknown Wife," she takes the role of a well-bred girl in a small New England town and handles her part in a delightful manner.

According to William Worthington, Miss Roberts' new director, and who has guided the dramatic footsteps of some of the foremost stars on the screen, the young Universal Star does some of the finest work in this role that has been filmed in some time. In this story she has an exceptional opportunity for strong emotional acting.

Although Edith Roberts is one of the youngest stars on the screen, she won her laurels as a child actress on the stage before she began acting for the films and since that time has become a popular favorite with the movie public. Her biggest success before the camera was made in unusual parts, but now the public has an opportunity to see her in a familiar role such as the one she is playing in "The Unknown Wife."

Casson Ferguson, who plays opposite Edith Roberts in this special attraction, is a brilliant young actor and a great favorite with all who appreciate real acting and character work in the films. Ferguson comes of an old Southern family, having been born near Alexandria, Louisiana, on what was once one of the finest plantation estates in the state. He was educated in New Orleans and later in Paris, where he studied for the operatic stage. He sang in grand opera in the French capital and in concert throughout Europe. Finding the requirements of grand

opera too strenuous for his voice he decided to follow the lighter musical productions, and appeared in musical comedy and in revues in London. He came to America with an English musical show a few years ago and after appearing in New York for some months was engaged by the Paramount Company for a role in "Secret Service." Since then he has remained in pictures, appearing in "How Could You, Janie," "The Only Road," "Jane Goes a-Wooding," "Johnny Get Your Gun," "The Flame of the Desert" and a number of Universal features. During the past year he has scored two big personal hits—as the son of "Madame X" and in the leading role in "The Mutiny of the Elsinore."

In "The Unknown Wife" he plays the part of a youth who has fallen into evil ways and serves five years in the penitentiary. It is the big male role in one of the best screen stories of the year. This feature comes to the Auditorium Sunday.

**ATMOSPHERE "ROADS OF DESTINY" CORRECT TO THE LAST DETAIL.**  
A real old-fashioned barn dance with real old-fashioned music furnished by a mouth organ, concertina and fiddler is one of the opening scenes in "Roads of Destiny," a big new Goldwyn picture starring Pauline Frederick which comes to the Auditorium theater Saturday. The story is one of that famous author, O. Henry, adapted for the screen by Channing Pollock. Miss Frederick herself is very enthusiastic about "Roads of Destiny" and believes she has found a big theme which is bound to make an impressive photoplay and one that will not be easily forgotten. She makes her first appearance in a modest little street costume sauntering into the midst of the laughing whirling couples in the barn dance. No matter what gown or what particular type of individual Frederick may be portraying, she always adapts herself to the character's circumstances, making her role as realistic as possible. In the barn dance, she enters the throng, and laughs, jokes and enjoys herself with the crowd of extras as though she were actually living in the olden days when the barn dance with the old fashioned music and surroundings was the regular nightly amusement. The young folks arrive in a big hay rack and the lighting for the hall is furnished by oil lamps with typical glass pendants tinkling from the chains and one can imagine the sweet musical sound as the door opens. The atmosphere in this new picture is perfect.

**JOSE COLLINS IN "WHERE IS MY HUSBAND?"**

Miss Jose Collins, who is known on both sides of the Atlantic as the Bernhardt of the screen, will be seen here in her latest emotional photoplay, "Where is My Husband?" at the Grand theater Sunday only.

One of the special features of this production is the uniform excellent of the cast supporting Miss Collins. Godfrey Tearle gives it is said, a capital performance of the leading male role, which such well-known players as J. Fisher White, Pardoe Woodman, Frances Wetmore and Bruce Winston appear in their support.

As to Miss Collins' recent stage success in London and New York, she has not been seen in pictures for the last season and a half, but her great success in the screen version of "A Woman's Honor" and several other big productions will be recalled.

**NEW BRADY PICTURE TENSE NEAR-TRAGEDY.**  
A new Alice Brady picture is always a treat to film lovers, and local playgoers yesterday welcomed the appearance of this popular star at the Alhambra theater in "Out of the Chorus" a tense emotional drama which borders on the melodramatic, as strong drama is bound to do, but which gives Miss Brady a role of the sort which she handles most expertly.

The plot swirls about a young and attractive girl who has rashly eloped with the son of a more than usually haughty "first family" who condemn the bride as a commonplace and designing vamp before they have ever

seen her, and resolve to get her out of the family as speedily as possible. It is doubtful if any street in any town or city harbors quite so mean a specimen of mother-in-law as the aristocratic dame whom poor Flo draws in the marriage lottery.

**EILEEN PERCY IN "THE LAND OF JAZZ."**  
Several celebrities are seen in the cast which supports Eileen Percy, who will appear in "The Land of Jazz" at the Alhambra theater next Sunday.

Rose Dione, a well-known French actress, Franklyn Truman, a professional jazz artist from the Orpheum Circuit, Ruth Stonehouse, a star in her own right and Keopie Morgan, a fat comedian of unusual fun-making ability have important parts. Herbert Heyes has the leading male role.

**"PUCKERED CHEEK" COMEDIAN SEEN IN LATEST OF MERMAIDS.**  
Frank Hayes, the "puckered cheek" actor who was the funniest of all the "oops" in more than forty Keystone Comedies, has an important role in "High and Dry" latest of the two-reel Mermaid Comedies at the Auditorium theater Sunday.

He appears as a quite aged and most homely old maid who is wild to be married and who finally gets her wish by kidnapping the bride, but herself falling the victim of a desperate and defeated suitor.

Jimmie Adams, who scored such a hit in "A Fresh Start" and "Nonsense" is the featured player with Thelma Percy as leading woman.

**"RED FOAM" IS A TWO DAY ENGAGEMENT.**  
It is difficult to point out one special point of excellence over another in the latest Selznick production, "Red Foam" which opened its two day engagement at the Grand theater yesterday, as here is a production which has been made with a uniformity of quality that is notable.

To begin with, the director, Ralph Ince, had a good story to work with and he has followed the original with a faithfulness that has retained all the dramatic power of the author's work just as William H. Hambry wrote it for the Saturday Evening Post.

While no one player is announced as the star the work of Zena Keefe in the role of a refined, sensitive wife of a boorish traveling salesman stands out with cameo-like clarity.

The story starts with a church social in a small Missouri town, and at first it would seem as if it would develop into a comedy production. But as the characters are brought out and the main theme makes its appearance, the plot gathers in power like an approaching storm, and the climax comes in a veritable gale of human passions with the wind of fury lashing the sea of life into a red foam. The people that were laughed at in the beginning are seen turned into veritable furies, and the quiet rural community becomes a disorderly frenzied mob.

**MYSTERY OF THE ORIENT IN-PICTURE AT GRAND.**

The air of mystery that prevails in the Orient in general and in India in particular, has been accurately caught by the camera in the new National Picture, "The Palace of Darkened Windows," which comes to the Grand theater next Monday, Tuesday and Wednesday.

All phases of Hindoo life are shown in this strikingly spectacular adaptation of Mary Hastings Bradley's book, from the gorgeous glittering high-caste Hindoo Rajah down to the fanatic Fakir.

**TONIGHT'S ATTRACTIONS.**  
Auditorium—Blanche Ring and Richard Carle in "The Century Midnight Whirl."  
Alhambra—Alice Brady in "Out of the Chorus."  
Grand—"Red Foam" and Nick Carter Picture.  
Gem—"The Forrest Runners," Helen Holmes; Star Comedy and "Current Events."

## How To Revitalize Wornout Exhausted Nerves

Your nerve power depends on plenty of good, rich, red blood of the kind that organic iron—Nuxated Iron—helps make. Nuxated Iron is like the iron in your blood and like the iron in spinach, apples and apples, while metallic iron is from iron filings. Nuxated Iron does not injure the body nor upset the stomach; it is an easily absorbed iron from ordinary metallic iron, and it quickly helps make rich, red blood, revitalizes wornout, exhausted nerves and gives you new strength and energy. Over 4,000,000 people have used Nuxated Iron. Look for the letters N. I. on every bottle. Sold by all druggists.

## BIG OIL TOWN IN SOUTH WALES

Complete New City Is Built  
Almost Over Night Where  
Persian Product Is Refined.

London.—Renewed attention has just been called to the romantic story of the great industry in South Wales, a land of romance in industry, by the building of a new £7,000,000 "oil town" near Swansea, with homes for a population of 1,500 workers.

The site of the new enterprise for the refining of oil brought there from the Persian gulf is Skewen, between Neath and Swansea where vast oil refineries have been constructed.

There within a boundary wall 15 miles in circumference, a great oil company has built a new town including stores, canteens, a postoffice and, in fact almost every adjunct for the comfort and convenience of the workers and their families who are to inhabit the place.

The undertaking is described as among the largest and most ambitious ever known even in South Wales where the great advances in industry have yielded more fortunes than in any other part of the United Kingdom.

The town sprang into existence as if by a magician's wand, on an arid waste, lying in a hollow basin surrounded by small hills. It is about 400 acres in extent and about five miles from Swansea. Towering tanks each capable of holding 1,000,000 gallons of oil now rear their heads above the village and at Swansea great docks and reservoirs have been constructed to receive the ships with their oil from the Persian of the Near East. As received, the oil will be pumped through pipes from Swansea through the new refining town and after refinement will be returned over the same route to Swansea for worldwide distribution.

This inaugurates an industry in South Wales which it is predicted will add new wealth to that already prosperous region.

## PORTUGUESE TRY TO FORCE PRICES DOWN

Lisbon.—The Portuguese are attempting to follow the example of the Americans and force a decline in the excessive prices of food and clothing by refusing to purchase. The people are indignant at the continued advance of the cost of the necessities of living, particularly the price of codfish, which is the chief article of food for the poorer families.

The city councils of Lisbon and Oporto are attempting to stop the exactions of the profiteers by purchasing large quantities of codfish from Newfoundland and selling it at one-third the price extorted from the public by shopkeepers. It is hoped that this will bring down not only the price of fish but that of meat.

The newspapers exhort the public to refrain from buying rice in order to bring down the price and announcements have been made of several cuts to come in that food.

The Portuguese public is looking to the United States to rescue them from their plight. Unverified rumors have been circulated that shipments of foodstuffs, clothing and shoes are on their way from America to flood the markets here at prices available to all. Many

householders are refusing to buy at present prices saying, "I will wait until the American ships have come."

A large poultry farm at Welwyn, England, is owned and operated by women, no man being allowed on the payroll or premises.

The average annual salary of college presidents of the United States is \$7,817. Deans of colleges and universities average \$4,000.

Because of their inability to write correct English, the business men of this country lose \$20,000,000 every year.

# 50,000 CHEVROLET "Four-Nineties"

THE production schedule of Chevrolet "Four-Ninety" Models for the seven months from January 1st to July 31st, 1921, is fifty thousand cars.

To each retail purchaser of a new Model "Four-Ninety" car at present list prices, we will make the following cash payments,— "Four-Ninety" Touring \$70; "Four-Ninety" Roadster \$70; "Four-Ninety" Light Delivery Wagon \$70; "Four-Ninety" Chassis \$70; "Four-Ninety" Coupe \$100; "Four-Ninety" Sedan \$100; provided the Chevrolet Motor Companies manufacture and sell fifty thousand new Chevrolet Model "Four-Ninety" cars between January 1st, 1921, and July 31st, 1921. This offer to be subject to the terms as set forth in full in the refund certificate which will be delivered to each purchaser.

This refund represents savings in material prices under present readjusted conditions, which savings can be made provided Chevrolet factories continue to operate on the estimated average quantity production basis.

It is in keeping with the Chevrolet policy to make the price of its product as low as quality manufacture on a large scale will permit. It is in keeping with the Chevrolet purpose of providing quick, convenient, economical

transportation at a cost within reach of those who want an automobile.

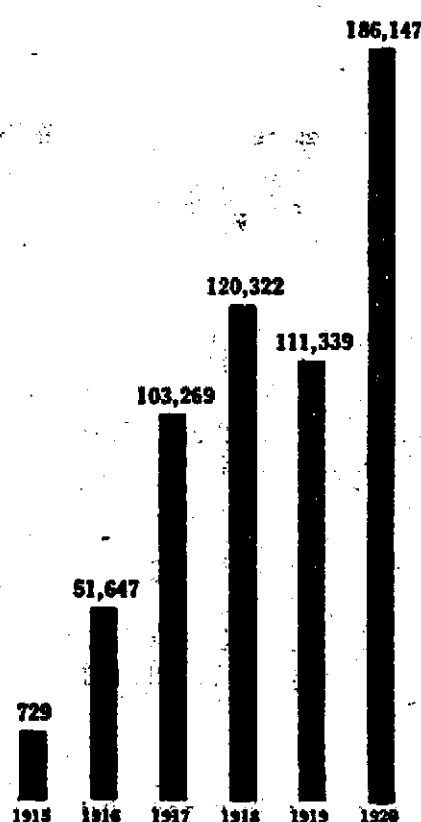

Fifty thousand cars is the minimum which Chevrolet engineers estimate will secure substantial savings in cost in manufacture. These savings will be passed on to the purchasers of these fifty thousand cars.

Each purchaser of a Model "Four-Ninety" will receive a certificate from his dealer, or from the Chevrolet retail store manager. This certificate will be redeemed as indicated on its face.

The entire plan is a straightforward business proposition presented in a straightforward way. Whether you are in the market for a new car or not, you must not fail to learn the details of this unique and simple plan. It offers to every man of sound business judgment an opportunity to take advantage of the best automobile value obtainable.

Retail purchasers of Model "Four-Ninety" cars since October 1st, 1920, will receive their certificates through their local dealers or retail stores on application to them.

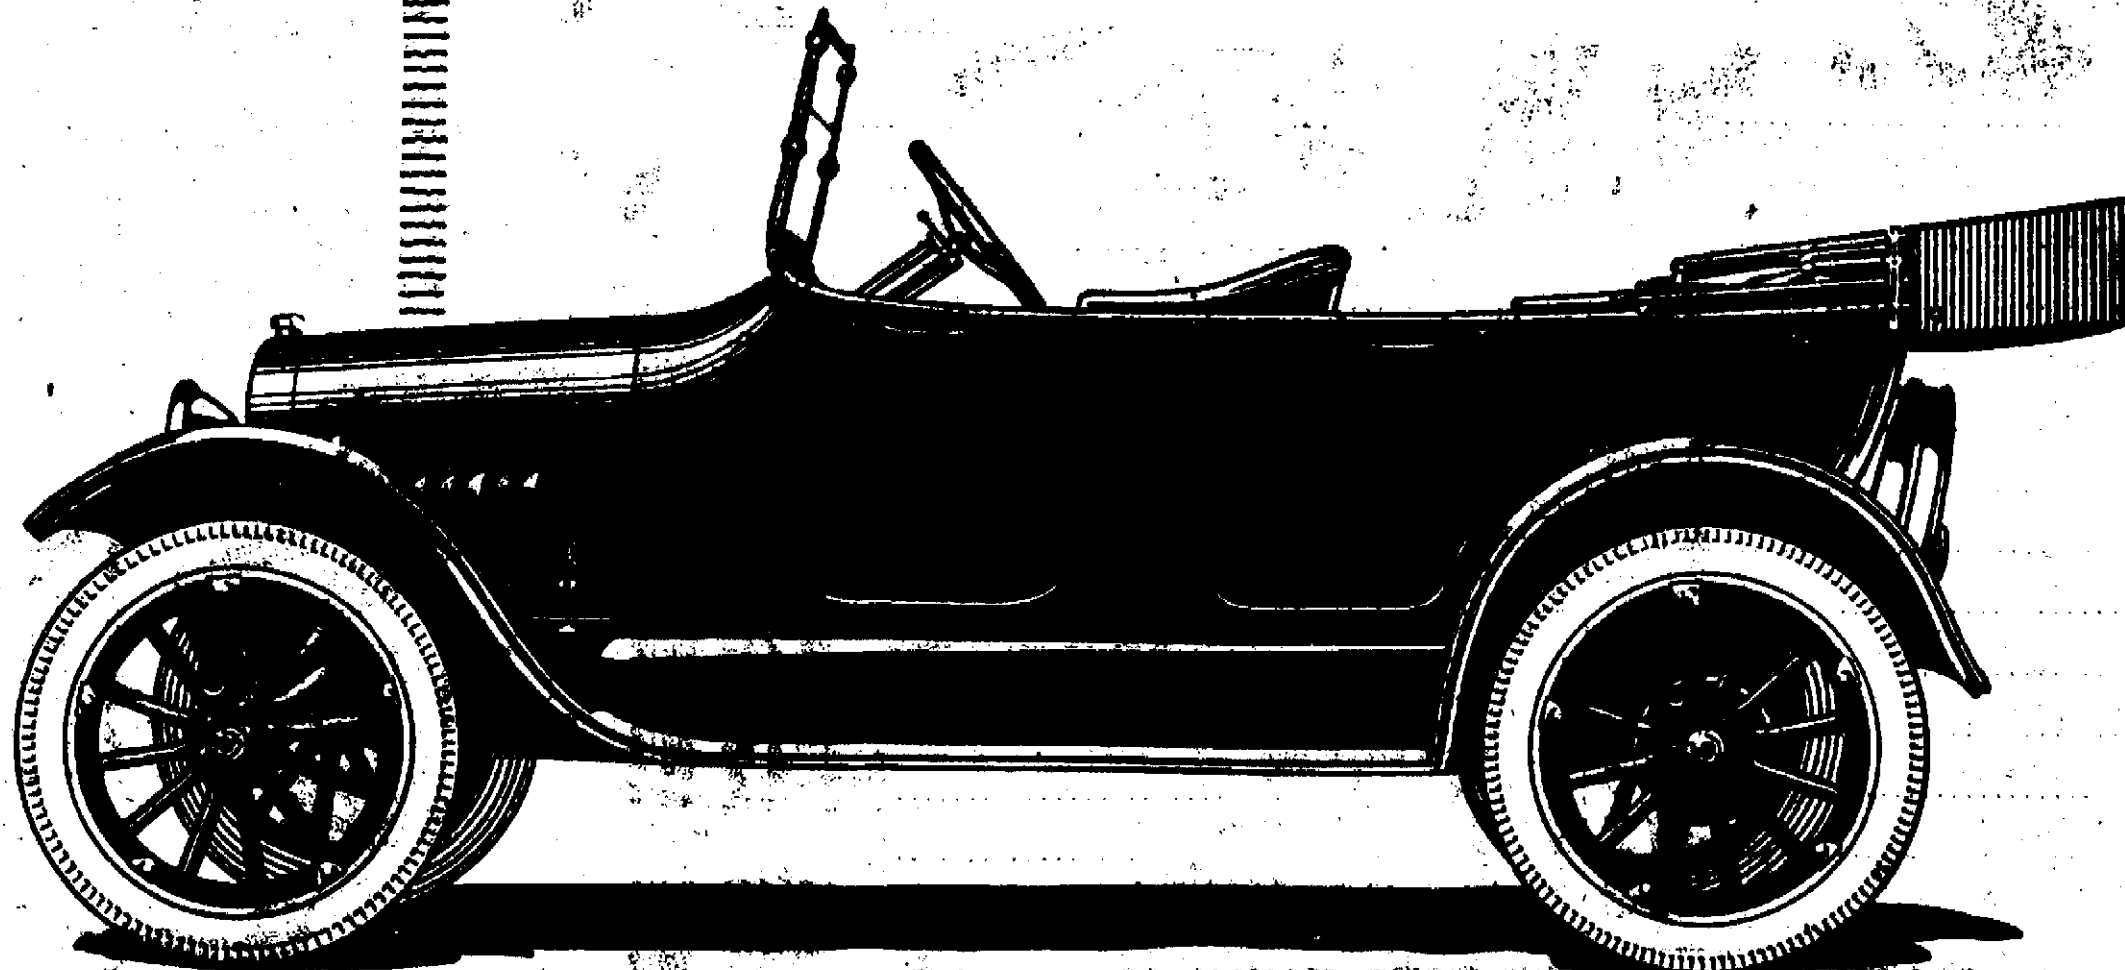

Production results will be announced not later than August 10th, 1921. Certificates will be subject to payment according to their terms, thereafter, up to September 15th, 1921.

# SCIENTISTS HUNT FOR BURIED CITY

Mexican Government Finances Excavation For Ancient Aztec Town.

Art Work and Pottery Are Similar to That Found In Egypt.

San Juan De Teotihuacan, Mexico.—Prospecting for the habitations of a lost race in virtually the same manner as miners dig for gold, federal employees here have just started to uncover the remains of a city of at least 100,000 inhabitants which flourished 4,000 or more years ago. Here and there over the confines of the buried city have been sunk shafts to find streets, houses and temples known to exist below the level of the mountain valley in which lies the little village of San Juan de Teotihuacan, the name of which means in the Aztec tongue, "City of the Gods."

The Mexican government has appropriated funds for this work of excavation which is in charge of Gamio, director of anthropology of the department of agriculture. The government hopes eventually to make the spot one of the show places of Mexico.

Dominating the area are the two pyramids, one to the Sun and the other to the Moon, which for centuries have defied the efforts of archaeologists and historians to trace their origin. The pyramid to the Moon is still untouched, retaining an appearance to the lay eye of a huge mound of irregular shape, overgrown with grass and rubbish.

Senor Gamio says the city now under excavation at one time covered an area of 15 square miles with a population of more than 100,000. Its builders are unknown to history but, Sr. Gamio believes they were a portion of an Indian tribe which wandered into Mexico from the north and, finding the valley fruitful and the climate salubrious, decided to settle.

The presence of volcanic rock as one of the top strata covering the ruins indicates that one of the nearby mountains erupted and inundated the city with lava.

Entry to the grounds is made facing the "Temple to the Goddess of the Winds," which was discovered less than a year ago, when erosion uncovered well defined walls and decorations typically Indian and Egyptian in their conception. This temple has now been dug out and reconstructed on the exterior. The inside is reached at present through a series of subterranean passages. Inside, the visitor treads over massive stairs with ornate decorations of huge serpents with obsidian eyes and grotesque conceptions reminiscent of Egyptian art. The work of interior excavation and reconstruction is far from complete.

Between this temple and the pyramid to the Sun is a stretch of one-quarter of a mile which is at intervals pierced by the shafts of the diggers and in some places by the uncovered remains of a house or public building with the paint still bright and the frescoes as intact as the day they were placed there several thousands of years ago.

Between the two pyramids is a well

defined plaza on one side of which a street has been uncovered known as the "Path of the Dead." Flanking the plaza are hundreds of mounds which Sr. Gamio assured the correspondent contained either houses or temples.

Immense stores of valuable archaeological material have been taken from the various excavations. Human bones, terra cotta heads, obsidian knives, arrowheads, children's toys of clay cooking utensils, incense burners and crude musical instruments form the bulk of the find and all are preserved in a museum which has just been erected on the grounds.

The two pyramids, however, are the dominant structures of the city. The pyramid to the Sun measures 781x721 feet at the base and is 216 feet high, narrowing to a level summit.

Unlike the pyramids of Egypt with its huge jutting blocks of stone forming

an endless stairs to the top, the Sun pyramid is built with a smooth surface in five distinct tiers. Ascent is made by steps built into the side and to the top of the tiers the undertaking is almost perilous because of the steep incline with no supporting balustrades. It differs from its Egyptian counterparts also in the respect that it contains no interior passages or rooms.

The pyramid to the Moon is smaller with a base measuring about 511x424 feet. It rises 151 feet with a crowning platform about 19 feet square.

In connection with his supervision of the excavations, Sr. Gamio has interested himself in the Indian life of the valley and one of his first efforts has been to establish schools with special attention paid to manual training. Originally, the valley contained 200,000 Indians, but these had been reduced to 20,000 in colonial days and now num-

ber less than 8,000. They earn but a poor living when crops are good and when there are failures starvation and widespread death ensue. Groups of Indians at pottery making, a new industry in the valley, were, evidence that a portion at least of Sr. Gamio's program is being carried out.

**VALUABLE ART STOLEN.**

Rotterdam.—A Benvenuto Cellini statue, valued at approximately \$20,000, which was shipped from Switzerland to an art dealer in Holland, and stolen enroute, turned up recently here, having been sold, in the first instance, for the equivalent of about \$2, its purchaser, recognizing its value, tried to dispose of it for a large sum, but was detected.

THE UNIVERSAL CAR

About Ford Cars—Solid Logic

THE Ford car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always lead in lowest first cost as well as in lowest cost to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that meant simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

## THOUGHT PLANE WAS BIG BIRD

Nicaraguan Natives Frightened When Seaplane Is Driven Down By Hurricane—Hid In Dense Forest.

San Juan Del Sur, Nicaragua.—There are even yet in remote parts of the world people who never even heard of an airplane. Some of these people live in the little Nicaraguan village of Gigante, where the naval plane NC-6 was forced down by a hurricane while on its flight from San Diego, Cal., to Panama along with about a dozen other planes in January.

They thought the NC-6 was a huge bird, an albatross, which had come in search for some unfortunate mariner who had offended it and they hid in the woods for several hours.

Near the little cove where the NC-6 came down are two ranches. After the Associated Press correspondent had found the missing NC-6, he visited one of these ranches and asked the women if they had seen the plane arrive. One of them replied:

"Mio Dios, I should think so. At the sight of the horrible thing skipping over the white caps, without flapping its wings, and spitting fire from its sides of its body and roaring like 2,000 bulls, we all took to the timbales where we remained for about four hours. We only came out when we saw a foreign gentleman passing in where we were hiding."

The women added that before the great war, when sailing ships used to visit the Nicaraguan coast to load mahogany and cedar, the captain had told them of a wonderful bird called an albatross that was an inhabitant of the Southern seas and they supposed this bird had come after some of the sailing ships.

**EMIGRANTS CHEATERS**  
The need for some kind of supervision over unauthorized steamship ticket agencies operating among illiterate emigrants, is illustrated by the following item in "The American News," a Russian New York Daily: "We have received a letter from three comrades who have left for Russia on Baltimore. They all bought steamship tickets to Libau from New York agent. Upon arrival at London, they discovered that their steamship tickets were good only to Hamburg. They had to buy additional tickets to Libau."

## Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.
